

# TAIPOL<sup>®</sup> NBR

Grade	Polymerization System	Extender	Package
<b>NBR</b> #8051	Cold process, Emulsion Polymerization	–	Paper bag 35Kg/bale
	<b>Characteristics:</b> High bound-acrylonitrile NBR. Good oil-resistant properties. <b>Application:</b> High oil resistance requirement products, various packings, oil hose, O-ring, PVC blend.		
<b>NBR</b> #8051H	Cold process, Emulsion Polymerization	–	Paper bag 35Kg/bale
	<b>Characteristics:</b> High bound-acrylonitrile and high Mooney NBR, good oil resistance and good solvent resistance properties. <b>Application:</b> High oil resistance and high performance requirement products, various packings, oil hose, O-ring, PVC blend.		
<b>NBR</b> #8052	Cold process, Emulsion Polymerization	–	Paper bag 35Kg/bale
	<b>Characteristics:</b> Medium Mooney, easy to processing. <b>Application:</b> Oil hose, various packings, PVC blend, shoes sole, foaming product and adhesives		
<b>NBR</b> #8052L	Cold process, Emulsion Polymerization	–	Paper bag 35Kg/bale
	<b>Characteristics:</b> Medium Mooney, easy to processing. <b>Application:</b> Oil hose, various packings, PVC blend, shoes sole, foaming product and adhesives		
<b>NBR</b> #8053	Cold process, Emulsion Polymerization	–	Paper bag 35Kg/bale
	<b>Characteristics:</b> Good low temperature resistance properties, good rebound properties. <b>Application:</b> Low temperature resistance, high elasticity and oil resistance requirement products (Aviation products)
